# Quality Control

## Product Information

With the high market competition, quality has become the market differentiator for almost all products and services. Quality control is essential to building a successful business that delivers products that meet or exceed customers' expectations.

Quality Control (Q/L) module is an easy and comprehensive quality solution for small to medium-sized trading enterprises. With Q/L, trading companies could quickly manage and improve the quality.

The module requires only Sage 300 I/C & P/O modules, but Sage 300 M/F is optional. It is compatible with Sage 300 v62 (2014) to v66 (2019).
